## THE MISSION

To mould the material received into educated gentlemen, thoroughly indoctrinated with honor, uprightness and truth, with practical rather than academic minds, with thorough loyalty to country, with a ground-work of educational fundamentals upon which experience afloat may build the finished naval officer, capable of upholding, whenever and wherever may be necessary, the honor of the United States; and withal giving due consideration that healthy minds in healthy bodies are necessities for the fulfillment of the individual missions of the graduates; and that fullest efficiency under this mission can only be attained if, through just and humane yet firm discipline, the graduates carry into the Service respect and admiration for this Academy.

HENRY B. WILSON,

Rear Admiral, U. S. Navy,  
Superintendent.

## THE UNITED STATES NAVAL ACADEMY

---

The United States Naval Academy was founded in 1845 by the Hon. George Bancroft, Secretary of the Navy, in the administration of President James K. Polk. It was formally opened October 10 of that year under the name of the Naval School, with Commander Franklin Buchanan as superintendent. It was placed at Annapolis, Md., on the land occupied by Fort Severn, which was given up for the purpose by the War Department by the Hon. William L. Marcy, then Secretary of War. The course was fixed at five years, of which only the first year and the last were spent at the school, the intervening three years being passed at sea. This arrangement was not strictly adhered to, the exigencies of the service making it necessary, in many cases, to shorten the period of study. In January, 1846, four months after the opening of the school, the students consisted of 36 midshipmen of the date of 1840, who were preparing for the examination for promotion; 13 of the date of 1841, who were to remain until drafted for service at sea; and 7 acting midshipmen appointed after September of the previous year. The midshipmen of the date of 1840 were the first to be graduated, finishing their limited course in July, 1846, and they were followed in order by the subsequent dates until the reorganization of the school in 1850.

In September, 1849, the following board was appointed to revise the plan and the regulations of the Naval School:

Commander William B. Shubrick.

Commander Franklin Buchanan.

Commander Samuel F. DuPont.

Commander George P. Upshur.

Surg. W. S. W. Ruschenberger.

Prof. William Chauvenet.

Capt. Henry Brewerton, United States Army.

The plan reported by the board was approved and went into operation July 1, 1850. The new organization provided for a course of seven years, the first two and the last two at the school and the three intermediate years at sea. The school was placed under the supervision of the Bureau of Ordnance and Hydrography and its name was changed to the United States Naval Academy. The corps of professors was enlarged, the course was extended, and the system of separate departments with executive heads was fully adopted. It was provided that a Board of Visitors should make an annual inspection of the academy and report upon its condition to the Secretary of the Navy. A suitable vessel was attached to the academy as a practice ship and the annual practice cruises were begun.

After the system had been in operation a year new changes were proposed and the recommendations of the academic board on the subject were referred to the board of examiners for the year 1851, composed of the following-named officers:

Commodore David Conner.

Capt. Samuel L. Breese.

Commander C. K. Stribling.

Commander A. Bigelow.

Commander Franklin Buchanan.

Lieut. Thomas T. Craven.

The change recommended by the board of examiners and adopted by the department consisted mainly in leaving out the requirement of three years of sea service

in the middle of the course, thus making the four years of study consecutive. The practice cruise supplied the place of the omitted sea service and gave better opportunities for training. The change went into operation in November, 1851, together with other improvements recommended by the board. This system has been continued, with some slight modifications, to the present time. The first class to receive the benefit of it was that which entered in 1851. Six members of this class completed the course in three years and were graduated in June, 1854; the remainder of the class followed in 1855.

In May, 1861, on the outbreak of the war the academy was moved to Newport, R. I. The three upper classes were detached and ordered to sea and the remaining acting midshipmen were quartered in the Atlantic House and on board the frigates *Constitution* and *Santee*. In the summer of 1865 the academy was brought back to Annapolis, where it has since remained.

When the Bureau of Navigation was established, July 5, 1862, the academy was placed under its supervision; March 1, 1867, it was placed under the direct care and supervision of the Navy Department, the administrative routine and financial management still being conducted through the bureau. On the 11th of March, 1869, this official connection with the bureau ceased, but was renewed by the general order of the Navy Department issued June 25, 1889.

The term of the academic course was changed by law March 3, 1873, from four to six years. The change took effect with the class that entered in the following summer.

In 1866 a class of acting third assistant engineers was ordered to the academy for instruction. The course embraced the subject of steam engineering, mechanism chemistry, mechanics, and practical exercises with the steam engine and in the machine shop. This class was graduated in June, 1868, together with two cadet engineers who had entered the academy in 1867. After an interval of four years, in October, 1871, a new class of cadet engineers was admitted. This class followed a two years' course, somewhat more extended than that of the class of 1868, and was graduated in 1873. In 1872 and 1873 new classes were admitted, the first of which left the academy in 1874 and the second in 1875. By an act of Congress approved February 24, 1874, the course of instruction for cadet engineers was made four years instead of two; the new provision was first applied to the class entering the academy in the year 1874. This class was graduated in June, 1878.

An act of Congress approved June 23, 1874, provides as follows:

*"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in all cases when it shall come to the knowledge of the Superintendent of the Naval Academy, at Annapolis, that any cadet midshipman or cadet engineer has been guilty of the offense commonly known as hazing, it shall be the duty of said superintendent to order a court-martial, composed of not less than three commissioned officers, who shall minutely examine into all the facts and circumstances of the case and make a finding thereon; and any cadet midshipman or cadet engineer found guilty of said offense by said court shall, upon recommendation of said court, be dismissed; and such finding, when approved by said superintendent, shall be final; and the cadet so dismissed from said Naval Academy shall be forever ineligible to reappointment to said Naval Academy.*

By an act of Congress approved August 5, 1882, it was provided that from that date "there shall be no appointments of cadet midshipmen or cadet engineers at the Naval Academy, but in lieu thereof naval cadets shall be appointed from each congressional district and at large, as now provided by law for cadet midshipmen, and all the undergraduates at the Naval Academy shall hereafter be designated and called 'naval cadets,' and from those who successfully complete the six years' course appointments shall hereafter be made as it is necessary to fill vacancies in

the lower grades of the Line and Engineer Corps of the Navy and of the Marine Corps: *And provided further*, That no greater number of appointments into these grades shall be made each year than shall equal the number of vacancies which has occurred in the same grades during the preceding year; such appointments to be made from the graduates of the year, at the conclusion of their six years' course, in order of merit, as determined by the academic board of the Naval Academy; the assignment of the various corps to be made by the Secretary of the Navy, upon the recommendation of the academic board. But nothing herein contained shall reduce the number of appointments from such graduates below ten in each year, nor deprive of such appointment any graduate who may complete the six years' course during the year eighteen hundred and eighty-two. And if there be a surplus of graduates, those who do not receive such appointment shall be given a certificate of graduation, an honorable discharge, and one year's sea pay, as now provided by law for cadet midshipmen; and so much of section fifteen hundred and twenty-one of the Revised Statutes as is inconsistent herewith is hereby repealed.

"That any cadet whose position in his class entitles him to be retained in the service may, upon his own application, be honorably discharged at the end of four years' course at the Naval Academy, with a proper certificate of graduation."

In 1886 a special course of instruction in physiology and hygiene was established, in accordance with an act of Congress approved May 20 of that year.

The act of Congress approved March 2, 1889, provides that "the academic board of the Naval Academy shall on or before the thirtieth day of September in each year separate the first class of naval cadets then commencing their fourth year into two divisions, as they may have shown special aptitude for the duties of the respective corps, in the proportion which the aggregate number of vacancies occurring in the preceding fiscal year ending on the thirtieth day of June in the lowest grade of commissioned officers of the Line of the Navy and Marine Corps of the Navy shall bear to the number of vacancies to be supplied from the academy occurring during the same period in the lowest grade of commissioned officers of the Engineer Corps of the Navy; and the cadets so assigned to the Line and Marine Corps division of the first class shall thereafter pursue a course of study arranged to fit them for service in the Line of the Navy, and the cadets so assigned to the Engineer Corps division of the first class shall thereafter pursue a separate course of study arranged to fit them for service in the Engineer Corps of the Navy, and the cadets shall thereafter, and until final graduation at the end of their six years' course, take rank by merit with those in the same division according to the merit marks; and from the final graduates of the Line and Marine Corps division, at the end of their six years' course, appointments shall be made hereafter as it shall be necessary to fill vacancies in the lowest grades of commissioned officers of the Line of the Navy and Marine Corps; and the vacancies in the lowest grades of the commissioned officers of the Engineer Corps of the Navy shall be filled in like manner by appointments from the final graduates of the engineer division at the end of their six years' course: *Provided*, That no greater number of appointments into the said lowest grades of commissioned officers shall be made each year than shall equal the number of vacancies which shall have occurred in the same grades during the fiscal year then current; such appointments to be made from the final graduates of the year, in the order of merit as determined by the academic board of the Naval Academy, the assignment to be made by the Secretary of the Navy upon the recommendation of the academic board at the conclusion of the fiscal year then current; but nothing contained herein or in the naval appropriation act of August fifth, eighteen hundred and eighty-two, shall reduce the number of appointments of final graduates at the end of their six years' course below twelve in each year to the Line of the Navy and not less

than two shall be appointed annually to the Engineer Corps of the Navy, nor less than one annually to the Marine Corps; and if the number of vacancies in the lowest grades aforesaid occurring in any year shall be greater than the number of final graduates of that year the surplus vacancies shall be filled from the final graduates of the following years as they shall become available.

"That after the fourth day of March, eighteen hundred and eighty-nine, the minimum age of admission of cadets to the academy shall be fifteen years and the maximum age twenty years."

In October, 1897, a postgraduate course in naval architecture for the education of officers for the Construction Corps of the Navy was established; and a class was formed from the naval cadets that had finished the four years' course in that year.

By an act of Congress approved March 3, 1899, "the officers constituting the Engineer Corps of the Navy" were transferred to the "Line of the Navy," thereby repealing so much of the act of Congress approved March 2, 1889, as relates to the separation of naval cadets of the first class into line and engineer divisions.

This same act having limited the number of constructors in the Navy to 40, the postgraduate course in naval architecture was discontinued.

By an act of Congress approved June 7, 1900, it was provided that—

"Whenever any naval cadet shall have finished four years of his undergraduate course of six years the succeeding appointment may be made from his congressional district or at large in accordance with the existing law."

By an act of Congress approved July 1, 1902, it was provided that—

"The title 'naval cadet' is hereby changed to 'midshipman.'

"That until the year nineteen hundred and fourteen, in addition to the naval cadets now authorized by law (the title having been changed by this act to midshipmen), the President shall appoint five midshipmen, and there shall be appointed from the States at large, upon the recommendation of Senators, two midshipmen for each State."

By an act of Congress approved March 3, 1903, it was provided that—

"There shall be allowed at the Naval Academy two midshipmen for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year at large: *Provided*, That the additional congressional appointments authorized by this act shall be made at such time as may be determined by the Secretary of the Navy, who shall equitably distribute the increase among the several States, districts, and Territories, so that ultimately, if practicable, each Senator, Representative, and Delegate may recommend for appointment during each Congress one midshipman: *Provided further*, That Members of the Fifty-seventh Congress, who will not be Members of the Fifty-eighth Congress, and in whose districts or States appointments have not been made or vacancies filled in the Fifty-seventh Congress, may immediately upon the passage of this act make the additional appointments herein provided for.

"The Secretary of the Navy shall, as soon as practicable after the fifth day of March in each year, notify in writing each Senator, Representative, and Delegate in Congress of any vacancy which may be regarded as existing in the State, district, or Territory which he represents, and the nomination of a candidate to fill such vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate. Such recommendations shall be made by the first day of June of that year, and if not so made the Secretary of the Navy shall fill the vacancy by the appointment of an actual resident of the State, district, or Territory in which the vacancy exists, who shall have been for at least two years immediately preceding his appointment an actual bona fide resident of the State, district, or Territory in which the vacancy exists and shall have the qualifications otherwise prescribed by law: *And provided further*, That the Superintend-

ent of the Naval Academy shall make such rules, to be approved by the Secretary of the Navy, as will effectually prevent the practice of hazing; and any cadet found guilty of participating in or encouraging or countenancing such practice shall be summarily expelled from the academy, and shall not thereafter be reappointed to the Corps of Cadets or be eligible for appointment as a commissioned officer in the Army or Navy or Marine Corps until two years after the graduation of the class of which he was a member.

"That the provision of this act for the increase of appointments of midshipmen to the Naval Academy shall continue in force until the thirtieth day of June, nineteen hundred and thirteen; and thereafter one midshipman, as now provided by law, shall be appointed for each Senator, Representative, and Delegate in Congress.

"That hereafter there shall be at the Naval Academy one midshipman from Porto Rico, who shall be a native of said island, and whose appointment shall be made by the President on the recommendation of the Governor of Porto Rico.

"That after January first, nineteen hundred and four, all candidates for admission to the Naval Academy at the time of their examination must be between the ages of sixteen and twenty years."

"All candidates for admission into the academy shall be examined according to such regulations and at such stated times as the Secretary of the Navy may prescribe. Candidates rejected at such examination shall not have the privilege of another examination for admission to the same class, unless recommended by the board of examiners." (R. S. sec. 1515.)

"When any candidate who has been nominated upon the recommendation of a Member or Delegate of the House of Representatives is found, upon examination, to be physically or mentally disqualified for admission, the Member or Delegate shall be notified to recommend another candidate, who shall be examined according to the provisions of the preceding section." (R. S., sec. 1516.)

An act of Congress approved April 9, 1906, reads as follows:

"AN ACT Granting authority to the Secretary of the Navy, in his discretion, to dismiss midshipmen from the United States Naval Academy and regulating the procedure and punishment in trials for hazing at the said academy

*"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That it shall be the duty of the Superintendent of the United States Naval Academy, whenever he shall believe the continued presence of any midshipman at the said academy to be contrary to the best interests of the service, to report in writing such fact, with a full statement of the facts upon which are based his reasons for such belief, to the Secretary of the Navy, who, if after due consideration of the said report he shall deem the superintendent's said belief reasonable and well founded, shall cause a copy of the said report to be served upon the said midshipman and require the said midshipman to show cause in writing and within such time as the said Secretary shall deem reasonable, why he should not be dismissed from the said academy; and after due consideration of any cause so shown the said Secretary may, in his discretion, but with the written approval of the President, dismiss such midshipman from the said academy. And the truth of any issue of fact so raised, except upon the record of demerit, shall be determined by a board of inquiry convened by the Secretary of the Navy under the rules and regulations for the government of the Navy.

"SEC. 2. That so much of the acts approved June twenty-third, eighteen hundred and seventy-four, and March third, nineteen hundred and three, as requires the Superintendent of the United States Naval Academy to convene a court-martial in all cases when it shall come to the knowledge of the said superintendent that any midshipman has been guilty of the offense commonly known as 'hazing,' and declares the finding of a court-martial so convened, when

approved by the said superintendent, final, and directs that any midshipman found guilty by such court-martial shall be summarily dismissed from the said academy, and also all other acts or parts of acts inconsistent with the present act, are hereby repealed, and that the offense known as 'hazing' may hereafter be proceeded against, dealt with, and punished as offenses against good order and discipline and for violation and breaches of the rules of said academy. But no midshipman shall be dismissed for a single act of hazing except under the provisions of section three of this act.

"SEC. 3. That the Superintendent of the United States Naval Academy may, in his discretion, and with the approval of the Secretary of the Navy, cause any midshipman in the said academy to be tried by court-martial for the offense of hazing, as provided by the act approved June twenty-third, eighteen hundred and seventy-four, and such court-martial, upon conviction, may sentence such midshipman to any punishment authorized by the said act or by the act approved March third, nineteen hundred and three, or authorized for any violation or breach of the rules of the said academy by the said rules, or in cases of brutal or cruel hazing, may, in addition to dismissal, sentence such midshipman to imprisonment for a period not exceeding one year: *Provided*, That such midshipman shall not be confined in a military or naval prison or elsewhere with men who have been convicted of crimes or misdemeanors; and such finding and sentence shall be subject to review by the convening authority and by the Secretary of the Navy, as in the cases of other courts-martial.

"SEC. 4. That the offense of 'hazing,' as mentioned in this act, shall consist of any unauthorized assumption of authority by one midshipman over another midshipman whereby the last-mentioned midshipman shall or may suffer or be exposed to suffer any cruelty, indignity, humiliation, hardship, or oppression, or the deprivation or abridgement of any right, privilege, or advantage to which he shall be legally entitled.

"SEC. 5. That it shall be the duty of every professor, assistant professor, academic officer, or any cadet officer or cadet petty officer, or instructor, as well as every other officer stationed at the United States Naval Academy, to promptly report to the superintendent thereof any fact which comes to his attention tending to indicate any violation by a midshipman or midshipmen of any of the provisions of this act or any violation of the regulations of the said academy. Any naval officer attached to the academy who shall fail to make such report as provided in this section shall be tried by court-martial for neglect of duty, and, if convicted, he shall be dismissed from the service. Any civilian instructor attached to the academy who shall fail to make such report as provided in this section shall be dismissed by the superintendent of the academy upon the approval of the Secretary of the Navy.

"SEC. 6. That this act shall take effect from the date of its approval, but no midshipman now connected with the United States Naval Academy shall, by reason of its enactment, be punished for any offense heretofore committed otherwise than in pursuance of the sentence of a court-martial (if by existing law such sentence would be now necessary for such punishment) or punished more severely than is now by law allowed for any offense heretofore committed: *Provided*, That any midshipman now in said Naval Academy may waive his right to trial by court-martial under existing law for any offense of hazing heretofore committed and may accept punishment under the provisions of section two of this act."

By an act of Congress June 29, 1906, it was provided that—

"Hereafter the Secretary of the Navy shall, as soon as possible after the first day of June of each year preceding the graduation of the midshipmen on the succeeding year, notify in writing each Senator, Representative, and Delegate

in Congress of any vacancy that will exist at the Naval Academy because of such graduation, or that may occur for other reasons, and which he shall be entitled to fill by nomination of a candidate and one or more alternates therefor. The nomination of a candidate and alternate or alternates to fill said vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate, if such recommendation is made by the fourth day of March of the year following that in which said notice in writing is given, but if it is not made by that time the Secretary of the Navy shall fill the vacancy by appointment of an actual resident of the State, congressional district, or Territory, as the case may be, in which the vacancy will exist, who shall have been for at least two years immediately preceding the date of his appointment an actual and bona fide resident of the State, congressional district, or Territory in which the vacancy will exist, and of legal qualification under the law as now provided. In cases where by reason of a vacancy in the membership of the Senate or House of Representatives or by the death or declination of a candidate for admission to the academy there occurs or is about to occur at the academy a vacancy from any State, district, or Territory that can not be filled by nomination as herein provided, the same may be filled as soon thereafter and before the final entrance examination for the year as the Secretary of the Navy may determine. The candidates allowed for the District of Columbia and all candidates appointed at large, together with alternates therefor, shall be selected by the President within the period herein prescribed for nomination of other candidates: *Provided*, That the President may select a candidate for the District of Columbia for the year nineteen hundred and eight.

"No person shall be admitted for instruction at the Naval Academy at Annapolis from any foreign country except upon authority of law hereafter enacted."

By an act of Congress approved March 7, 1912, it was provided—

"That the course at the Naval Academy shall be four years, and midshipmen on graduation shall be commissioned ensigns: *Provided*, That midshipmen now performing two years' service at sea in accordance with existing law shall be commissioned forthwith as ensigns from the date of the passage of this act: *And provided*, That those midshipmen of the class which was graduated in nineteen hundred and nine, who have completed two years' service afloat, and who are due for promotion, shall be commissioned ensigns to take rank with the other members of their class, according to their standing as determined by their final multiples, respectively, for the six years' course, from the fifth day of June, nineteen hundred and eleven, the date of rank to which they were entitled prior to the passage of this act: *And provided further*, That no back pay or allowances shall result by reason of the passage of this Act."

The class graduating from the Naval Academy June, 1912, was the first class to be graduated as ensigns.

By an act of Congress approved July 9, 1913, it was provided—

"That after June thirtieth, nineteen hundred and thirteen, and until June thirtieth, nineteen hundred and nineteen, there shall be allowed at the Naval Academy two midshipmen for each Senator, Representative, and Delegate in Congress, one for Porto Rico, two for the District of Columbia, and ten appointed each year at large: *Provided*, That the midshipmen on graduation shall be commissioned ensigns in the Navy or may be assigned by the Secretary of the Navy to fill vacancies in the lowest commissioned grades of the Marine Corps or Staff Corps of the Navy."

By an act of Congress passed June 30, 1914, it was provided—

"Hereafter, in addition to the appointments of midshipmen to the United States Naval Academy as now prescribed by law, the Secretary of the Navy is allowed fifteen appointments annually from the enlisted men of the Navy who

are citizens of the United States and not more than twenty years of age on the date of entrance to the Naval Academy, and who shall have served not less than one year as enlisted men on the date of entrance: *Provided*, That such appointments shall be made in the order of merit from candidates who have in competition with each other passed the mental examination now or hereafter required by law for entrance to the Naval Academy, and who passed the physical examination required before entrance under existing law."

An act of Congress approved February 15, 1916, reads as follows:

"*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, That hereafter there shall be allowed at the United States Naval Academy three midshipmen for each Senator, Representative, and Delegate in Congress, one for Porto Rico, two for the District of Columbia, ten appointed each year at large, and fifteen appointed annually from enlisted men of the Navy as now authorized by law.

"SEC. 2. That all acts or parts of acts inconsistent with the provisions of this act are hereby repealed."

Public Resolution, No. 7, Sixty-fourth Congress, approved February 15, 1916, provides as follows:

"*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled*, That the Secretary of the Navy be, and he hereby is, authorized to permit Mr. Carlos Hevia y Reyes Gavilan, a citizen of Cuba, to receive instruction at the United States Naval Academy at Annapolis: *Provided*, That no expense shall be caused to the United States thereby, and that the said Carlos Hevia y Reyes Gavilan shall agree to comply with all regulations for the police and discipline of the academy, to be studious, and to give his utmost efforts to accomplish the course in the various departments of instruction, and that the said Carlos Hevia y Reyes Gavilan shall not be admitted to the academy until he shall have passed the mental and physical examinations prescribed for candidates from the United States, and that he shall be immediately withdrawn if deficient in studies, or conduct, and so recommended by the academic board."

An act of Congress approved August 29, 1916, provides as follows:

"Hereafter, in addition to the appointment of midshipmen to the United States Naval Academy, as now prescribed by law, the President is hereby allowed fifteen appointments annually instead of ten as now prescribed by law, and the Secretary of the Navy is allowed twenty-five appointments annually instead of fifteen as now prescribed by law, the latter to be appointed from the enlisted men of the Navy who are citizens of the United States, and not more than twenty years of age on the date of entrance to the Naval Academy, and who shall have served not less than one year as enlisted men on the date of entrance: *Provided*, That such appointments shall be made in the order of merit from candidates who have in competition with each other passed the mental examination now or hereafter required by law for entrance to the Naval Academy, and who passed the physical examinations required before entrance under existing laws.

"That hereafter the Secretary of the Navy is authorized to permit not exceeding four Filipinos, to be designated, one for each class, by the Governor General of the Philippine Islands, to receive instruction at the United States Naval Academy at Annapolis, Maryland: *Provided*, That the Filipinos undergoing instruction, as herein authorized, shall receive the same pay, allowances, and emoluments, to be paid out of the same appropriations, and shall be subject to the same rules and regulations governing admission, attendance, discipline, resignation, discharge, dismissal, and graduation as are authorized by law and

regulation for midshipmen appointed from the United States, but the Filipino midshipmen herein authorized shall not be entitled to appointment to any commissioned office in the United States Navy by reason of their graduation from the Naval Academy.

*"Provided further, That no midshipman at the United States Naval Academy or cadet at the United States Military Academy who fails to graduate therefrom shall be eligible for appointment as a commissioned officer in the Marine Corps until after the graduation of the class of which he was a member."*

An act of Congress approved March 4, 1917, provides as follows:

*"Hereafter, in addition to the appointment of midshipmen to the United States Naval Academy, as now prescribed by law, the Secretary of the Navy is allowed one hundred appointments annually instead of twenty-five as now prescribed by law, to be appointed from the enlisted men of the Navy who are citizens of the United States, and not more than twenty years of age on the date of entrance to the Naval Academy, and who shall have served not less than one year as enlisted men on the date of entrance: Provided, That such appointments shall be made in the order of merit from candidates who have, in competition with each other, passed the mental examination now or hereafter required by law for entrance to the Naval Academy, and who passed the physical examination before entrance under existing laws."*

*"The President, in his discretion, is authorized to reduce the course of instruction at the Naval Academy from four to three years for a period of two years from the date of the approval of this act, and may during said two years graduate classes which have completed a three-year course."*

An act of Congress approved April 25, 1917, reads as follows:

*"AN ACT To increase the number of midshipmen at the Naval Academy until September first, nineteen hundred and eighteen .*

*"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, in addition to the number of midshipmen now authorized by law, there shall be appointed during the period from the date of passage of this act until September first, nineteen hundred and eighteen, one additional midshipman for each Senator, Representative, and Delegate in Congress. Nominations shall be made for these vacancies by the Senators, Representatives, and Delegates concerned for any regular or special examination that may be ordered before that date."*

An act of Congress approved December 20, 1917, reads as follows:

*"Be it enacted, by the Senate and House of Representatives of the United States of America in Congress assembled, That hereafter there shall be allowed at the United States Naval Academy five midshipmen for each Senator, Representative, and Delegate in Congress, one for Porto Rico, two for the District of Columbia, fifteen appointed each year at large, and one hundred appointed annually from enlisted men of the Navy, as now authorized by law."*

*"SEC. 2. That all acts or parts of acts inconsistent with the provisions of this act are hereby repealed."*

An act of Congress approved April 2, 1918, reads as follows:

*"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the President be, and he is hereby, authorized, until August first, nineteen hundred and twenty-one, to reduce, in his discretion, the course of instruction at the United States Naval Academy from four to three years and to graduate classes which have completed such reduced courses of instruction."*

The following classes were graduated in accordance with the act of Congress of April 2, 1918, authorizing a reduction in the course:

Class	Date graduated	Members graduated
1917-----	Mar. 29, 1917	182
1918-----	June 28, 1917	199
1919-----	June 6, 1918	199
1920-----	June 6, 1919	460
1921 (first half)-----	June 3, 1920	286

On June 6, 1919, the class of 1921 was divided, and the first half, according to general merit for the third-class year, became the first class and continued the three years' course; the second half became the second class and resumed the four years' course.

An act of Congress approved May 14, 1918, reads as follows:

"AN ACT To fix the age limits for candidates for admission to the United States Naval Academy

*"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That hereafter all candidates for admission to the Naval Academy must be not less than sixteen years of age nor more than twenty years of age on April first of the calendar year in which they enter the academy: *Provided,* That the foregoing shall not apply to candidates for midshipmen designated for entrance to the academy in nineteen hundred and eighteen."

An Act of Congress approved July 11, 1919, reads as follows:

"Section 1 of the act entitled 'An act to increase the number of midshipmen at the United States Naval Academy,' approved December 20, 1917, is hereby amended so as to read as follows: That hereafter there shall be allowed at the United States Naval Academy five midshipmen for each Senator, Representative, Delegate in Congress, and Resident Commissioner from Porto Rico, and five for the District of Columbia, fifteen appointed each year at large, and one hundred appointed annually from enlisted men of the Navy, and members of the Naval Reserve Force on active duty, as now authorized by law."

This act also provides that all midshipmen entering the Naval Academy subsequent to June 1, 1919, shall be allowed mileage, at 5 cents per mile, while proceeding from their homes to the Naval Academy for examination and appointment as midshipmen, and that the pay of midshipmen shall hereafter be \$780 per annum.

The following clause was contained in the deficiency act approved June 5, 1920:

"That until otherwise provided by law no midshipman found deficient at the close of the last and succeeding academic terms, shall be involuntarily discontinued at the Naval Academy or in the service unless he shall fail upon reexamination in the subjects in which found deficient at an examination to be held at the beginning of the next and succeeding academic terms and the Secretary of the Navy shall provide for the special instruction of such midshipmen in the subjects in which found deficient during the period between academic terms."

A clause in the naval appropriation bill, act of July 12, 1921, provides that a candidate for midshipman so desiring may receive a credit of \$250 upon entrance toward defraying the entering expenses.

An act providing for the readmission of certain deficient midshipmen to the United States Naval Academy, approved October 22, 1921, reads as follows:

*"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the Secretary of the Navy is authorized, upon application, to admit to and reinstate in the United States Naval Academy, subject to examination as to physical qualifications, as provided by law, but waiv-

ing the provisions of law as to age requirements, all former midshipmen at the United States Naval Academy found deficient at the end of the first term of the academic year 1920-21 whose resignations were asked for and received by the superintendent of the Naval Academy: *Provided*, That they shall upon admission be placed in the class one year behind their former class in each case: *Provided further*, That said midshipmen affected by this act must signify their acceptance of the benefits thereof by presenting themselves for physical examination within one month of the date of its approval, and if found qualified will enter the Naval Academy immediately.

"SEC. 2. That the clause in the act approved June 5, 1920 (Forty-first Statutes, page 1028), entitled 'An act making appropriations to supply deficiencies in appropriations for the fiscal year ending June 30, 1920, and for other purposes,' which reads as follows: 'That until otherwise provided by law no midshipman found deficient at the close of the last and succeeding academic terms shall be involuntarily discontinued at the Naval Academy or in the service unless he shall fail upon reexamination in the subjects in which found deficient at an examination to be held at the beginning of the next and succeeding academic terms, and the Secretary of the Navy shall provide for the special instruction of such midshipmen in the subjects in which found deficient during the period between academic terms,' be, and the same hereby is, repealed, and section 1519 of the Revised Statutes restored to its full force and effect."

Public Resolution, No. 72, Sixty-seventh Congress, approved September 18, 1922, provides as follows:

*"Resolved by the Senate and House of Representatives of the United States of America in Congress assembled*, That the Secretary of the Navy be, and hereby is, authorized to permit Mr. Willem van Doorn, a subject of the Netherlands, to receive instruction at the United States Naval Academy at Annapolis: *Provided*, That no expense shall be caused to the United States thereby, and that the said Willem van Doorn shall agree to comply with all regulations for the police and discipline of the academy, to be studious, and to give his utmost efforts to accomplish the course in the various departments of instruction, and that the said Willem van Doorn shall not be admitted to the academy until he shall have passed the mental and physical examinations prescribed for candidates from the United States, and that he shall be immediately withdrawn if deficient in studies or conduct and so recommended by the academic board."

An act of Congress approved January 22, 1923, reads as follows:

"That no part of this appropriation shall be available for the pay of any midshipmen whose admission, subsequent to the class entering the Naval Academy next after the approval of this act, would result in exceeding at any time an allowance of three midshipmen for each Senator, Representative, and Delegate in Congress; of one midshipman for Porto Rico, a native of the island, appointed on nomination of the governor, and of one midshipman from Porto Rico, appointed on the nomination of the Resident Commissioner; and of two midshipmen for the District of Columbia: *Provided further*, That nothing herein shall be construed to repeal or modify in any way existing laws relative to the appointment of midshipmen at large or from the enlisted personnel of the naval service."

An act of Congress approved May 28, 1924, reads as follows:

"That no part of this appropriation shall be available for the pay of any midshipman whose admission subsequent to February 9, 1924, would result in exceeding at any time an allowance of three midshipmen for each Senator, Representative, and Delegate in Congress; of one midshipman from Porto Rico, appointed on nomination of the Resident Commissioner; and of two midshipmen for the District of Columbia: *Provided further*, That nothing herein contained shall be construed to repeal or modify in any way existing laws relative to the appointment of midshipmen at large or from the enlisted personnel of the naval service."

## SUPERINTENDENTS OF THE UNITED STATES NAVAL ACADEMY

---

	Assumed command
Commander Franklin Buchanan.....	Sept. 3, 1845
Commander George P. Upshur.....	Mar. 15, 1847

## YARD CHAPLAINS

Capt. SYDNEY K. EVANS (Ch. C.).  
 Lieut. WILLIAM N. THOMAS (Ch. C.).

## MARINE BARRACKS

Maj. HAROLD F. WIRGMAN, U. S. M. C.  
 First Lieut. FREDERICK E. STACK, U. S. M. C.  
 First Lieut. WILLIAM H. FAGA, U. S. M. C.

## U. S. S. "REINA MERCEDES" (STATION SHIP)

Commander LAURANCE N. McNAIR.	Chief Pay Clerk JOHN W. NICHOLS.
Lieut. LUDWIG W. GUMZ.	Boatswain LEWIS W. ADKINS.
Lieut. RUDOLPH A. ASHTON (S. C.).	Machinist VALERS G. SAVAGE.
Chief Boatswain WILLIAM M. CAS- STEVENS.	Carpenter GARRETT P. FITZMAURICE.
Chief Gunner MARS W. PALMER. <sup>1</sup>	Pay Clerk JOHN W. TROY.

## SUPPLY OFFICE

Capt. BARRON P. DuBois (S. C.)  
 Lieut. LOUIS H. HUEBNER (S. C.)  
 Pay Clerk NOEL O. BICKHAM.

## NAVAL HOSPITAL

Capt. ROBERT M. KENNEDY (M. C.).	Lieut. GERALD SELBY (M. C.).
Commander ADDISON B. CLIFFORD (M. C.).	Lieut. JAMES E. FETHERSTON (M. C.).
Lieut. Commander ALFRED L. CLIF- TON (M. C.).	Lieut. DANIEL P. PLATT (M. C.)
Lieut. Commander WILLIAM H. MI- CHAEL (M. C.).	Chief Pharmacist JASON H. BARTON.
	Chief Pharmacist ROSCOE C. ROWE.
	Chief Pharmacist LEON H. FRENCH.
	Pharmacist FRANK R. BORK.

## ENGINEERING EXPERIMENT STATION

Capt. PAUL B. DUNGAN.  
 Commander PHILIP H. HAMMOND.  
 Lieut. FREDERICK PETRY.

## NAVAL RADIO STATION (HIGH POWER)

Lieut. PAUL B. THOMPSON.  
 Chief Gunner WILLIAM J. VOLKMAN.

## NAVY COMMISSARY STORE

Lieut. WILLIAM T. WILLIAMS (S. C.).  
 Pay Clerk JAMES E. SHEA.

---

<sup>1</sup> Additional duty in E. E. & P. Department.

## ACADEMIC BOARD

---

THE SUPERINTENDENT.

THE COMMANDANT OF MIDSHIPMEN.

THE HEAD OF THE DEPARTMENT OF ELECTRICAL ENGINEERING AND PHYSICS.

THE HEAD OF THE DEPARTMENT OF ENGLISH.

THE HEAD OF THE DEPARTMENT OF MODERN LANGUAGES.

THE HEAD OF THE DEPARTMENT OF HYGIENE.

THE HEAD OF THE DEPARTMENT OF PHYSICAL TRAINING.

## PRACTICE CRUISE, 1924

---

There was no regular Naval Academy practice squadron for the summer practice cruise, 1924.

Officers and midshipmen detailed for the practice cruise embarked on June 5, 1924, and disembarked on August 28, 1924.

The midshipmen of the first, second, and third classes were assigned to the following ships of Division Two, Battleships Division, Scouting Fleet: *Wyoming* (flagship), *New York*, *Texas*, and *Arkansas*.

The itinerary of the midshipmen's practice cruise was as follows:

Place	Arrival	Departure
Annapolis-----	Friday, May 30-----	Thursday, June 5.
Tor Bay-----	Wednesday, June 18-----	Wednesday, June 25.
Brest-----	Thursday, June 26-----	Monday, July 7.
Rotterdam ( <i>Wyoming</i> , <i>Ar-</i> <i>kansas</i> ).-----	Monday, July 14-----	Friday, July 25.
Antwerp ( <i>New York</i> , <i>Texas</i> )--	-----do-----	Do.
Gibraltar-----	Thursday, July 31-----	Monday, August 4.
Ponta Delgada-----	Friday, Aug. 8-----	Saturday, Aug. 9.
Lynnhaven Bay (target prac- tice).-----	Monday, Aug. 18-----	Wednesday, Aug. 27.
Annapolis-----	Thursday, Aug. 28-----	

## MERIT ROLLS FOR 1923-24

---

Merit rolls, made out annually for each class, show the proficiency of the midshipmen in each branch of study. The numbers given in the table, showing the relative weight of the different branches, are used as coefficients, the final mark in each branch (on a scale of 4) being multiplied by the number assigned to that branch. The sum of the products, after adding the multiple for discipline, is the final mark of the midshipmen for the year.

In the graduating merit roll the final standing for the course is determined by the sum of the yearly multiples.

Midshipmen who attain 85 per cent of the multiple for a year shall be distinguished by a star affixed to their names on the annual merit rolls. (Regulations, U. S. Naval Academy, 1923, par. 167.)

The diplomas of midshipmen whose final multiples on the graduating merit roll are not less than 85 per cent of the maximum shall read "Passed with distinction"; those whose final multiples are less than 85 per cent but not less than 75 per cent of the maximum shall read "Passed with credit"; and those whose final multiples are less than 75 per cent of the maximum shall read "Passed." (Regulations, U. S. Naval Academy, 1923, par. 168.)

\* Received 85 per cent of multiple.

A Completed course; diploma and commission withheld pending action on physical disability.

*a* Graduated; physically disqualified on annual examination; granted reexamination, but voluntarily resigned in advance of reexamination.

*b* Resignation accepted upon graduation due to physical disqualification.

*c* Turned back into next lower class on account of conduct.

*d* Continued with class pending delayed examinations due to illness.

*dd* Died.

*e* Diploma withheld; sent on practice cruise as disciplinary measure; later graduated and commissioned.

*f* Dismissed.

*g* Found physically disqualified upon reexamination; resigned.

*h* Deficient in studies; turned back.

*i* Deficient in studies; required to resign.

MC Assigned to Marine Corps upon graduation.

*m* Reinstated under act of Congress, approved October 21, 1921. Date and age used are date and age upon reinstatement.

*o* Deficient in studies; retained in next lower class on account of illness.

*p* Turned back into this class on account of illness.

*r* Resigned.

*s* Voluntary resignation accepted immediately upon graduation.

SC Assigned to Supply Corps upon graduation.

*t* Recommended for dismissal, but permitted to resign.

*u* Did not graduate; recommended for dismissal, but resignation accepted.

*w* Turned back into next lower class on account of illness.

*x* Deficient for first term; turned back into this class.

*y* Turned back into this class on account of conduct.

*Merit roll for the four years' course of the midshipmen of the graduating class (class of 1924), 525 members, of whom 522 graduated*

Terry, Ralph Bane, class of 1926	Jan. 21, 1924
Thomas, Robert Hampson, class of 1924	Oct. 17, 1923
Thompson, Joseph Cornelius, class of 1926	Feb. 2, 1924
Thompson, Russell Samuel, class of 1925	Nov. 22, 1923
Timberlake, Casper Hill, class of 1927	Sept. 23, 1924
Timmerman, Dixon Padgett, class of 1927 <sup>b</sup>	Feb. 16, 1924
Trese, Joseph Condon, class of 1927 <sup>b</sup>	Do.
Truax, William David Brown, class of 1926	Sept. 9, 1924
Wagner, Chester Theodore, class of 1926	Do.
Walbridge, Vern, class of 1924	June 4, 1924
Wales, William Wyatt, class of 1926	Feb. 16, 1924

Name and class	Date resigned
Walker, Donald Seymour, class of 1924	June 4, 1924
Walker, Hazel Marion, class of 1927	Feb. 21, 1924
Waller, George Washington Doane, jr., class of 1924	June 4, 1924
Walling, Elbert Stewart, class of 1927	Dec. 6, 1923
Walsh, Albert Joseph, class of 1924	June 4, 1924
Walshe, Frank Seymour, jr., class of 1926	Feb. 25, 1924
Walters, Ralph Edward, class of 1927	Dec. 6, 1923
Welsh, D. Emmett, class of 1924	June 4, 1924
White, Theodore Clark, class of 1925	Feb. 16, 1924
Whitmire, Boyce Augustus, class of 1927	Feb. 4, 1924
Whitlock, Laurence Alexander, class of 1927	Feb. 13, 1924
Wiles, Gordon Warren, class of 1926	Dec. 13, 1923
Wiley, Wallace Eugene, class of 1927	June 4, 1924
Williams, Artie Leon, jr., class of 1924	Do.
Williams, Neville Allen, class of 1927	Nov. 6, 1923
Wilson, Hal Kay, class of 1924	June 4, 1924
Wolfe, Leland Jacob, class of 1927	Feb. 21, 1924
Wood, Milton Chubbuck, class of 1927 <sup>b</sup>	Feb. 16, 1924
Woodruff, Burleigh Alfred, class of 1927	Do.
Wyly, Lucian Buffington, class of 1925	Oct. 20, 1923
Yeager, William Cornelius, class of 1927 <sup>b</sup>	Feb. 16, 1924
Young, Casanave Howle, class of 1925	Do.
Zahm, Richard Holloway, class of 1927	May 12, 1924
Zinterhofer, Louis Joseph, class of 1927	Mar. 22, 1924

*Dropped*

Name and class	Date dropped
Beaird, Lucius Howard, class of 1927	Nov. 13, 1923
Fox, Stewart Bell, class of 1925	Oct. 23, 1923
Holcomb, Delton Smith, class of 1927	Nov. 26, 1923
Scott, Howard Newton, class of 1927	Nov. 14, 1923
Spriggs, Kahl Kenneth, class of 1927	Nov. 6, 1923
Toucey, Ferris Donald, class of 1927	Nov. 14, 1923

*Deaths*

Name and class	Date died
Dotzler, Theodore Roosevelt, class of 1925	Oct. 30, 1923
Duncan, Robert James, class of 1925	Aug. 14, 1924
Ogden, Sidney Norris, class of 1925	Jan. 20, 1924
Smith, Leicester Richard, class of 1925	May 28, 1924
Van Den Corput, William Maximillian, class of 1927	Dec. 29, 1923

*Dismissals*

Name and class	Date dismissed
Gerwig, Roger Wesley, class of 1927	Sept. 19, 1924
Sealy, Havert Stanly, jr., class of 1927	May 31, 1924
Steel, Harold Payne, class of 1926	May 14, 1924
Triebe, Edward James, class of 1925	Sept. 30, 1924

*Retained in next lower class*

Name	Date turned back
Abernethy, John Robert, class of 1927 to class of 1928	May 29, 1924
Addison, Edward Spencer, class of 1926 to class of 1927	Sept. 5, 1924

<sup>b</sup> Readmitted.

Name and class	Date turned back
Barnette, Stuart Moffett, class of 1927 to class of 1928.....	Sept. 5, 1924
Bell, Lyman Herrick, class of 1927 to class of 1928.....	May 29, 1924
Blanche, John Goodman, jr., class of 1924 to class of 1925.....	Dec. 13, 1923
Boss, Carlos Ransom, class of 1927 to class of 1928.....	May 29, 1924
Bowden, William Kendrick, class of 1927 to class of 1928.....	Sept. 5, 1924
Brett, James Henry, jr., class of 1927 to class of 1928.....	Do.
Bruen, Cuthbert Joseph, class of 1927 to class of 1928.....	Sept. 5, 1924
Cain, Harrold Francis, class of 1927 to class of 1928.....	May 29, 1924
Carter, Joseph Williams, class of 1926 to class of 1927.....	May 29, 1924
Coll, John Owen Reilly, class of 1926 to class of 1927.....	Dec. 5, 1923
Collis, John Leon, class of 1927 to class of 1928.....	Sept. 5, 1924
Croft, Frank Cornelius, class of 1927 to class of 1928.....	June 1, 1924
Dean, John Little, class of 1926 to class of 1927.....	Feb. 25, 1924
Drew, Edward John, class of 1926 to class of 1927.....	Feb. 13, 1924
Durham, Ritchey Lee, class of 1925 to class of 1926.....	Sept. 5, 1924
Dyson, Howell Jesse, class of 1926 to class of 1927.....	Sept. 5, 1924
Fitzgerald, Delano Jackson, class of 1926 to class of 1927.....	Feb. 13, 1924
Fountain, Frank Fremont, class of 1925 to class of 1926.....	June 1, 1924
Garton, Norman Farquhar, class of 1927 to class of 1928.....	Do.
Giese, Albert Augustus, class of 1925 to class of 1926.....	Dec. 17, 1923
Gordon, Donald Stuart, class of 1927 to class of 1928.....	Sept. 5, 1924
Gordon, Howard Wright, jr., class of 1926 to class of 1927.....	Feb. 13, 1924
Gunther, Louis Everett, class of 1925 to class of 1926.....	Apr. 7, 1924
Hanlon, Paul Joseph, class of 1925 to class of 1926 r.....	Feb. 13, 1924
Harrell, Joseph William, class of 1926 to class of 1927.....	May 29, 1924
Hasbrouck, Preston, class of 1927 to class of 1928.....	Do.
Heavilin, John Seegar, class of 1926 to class of 1927.....	Do.
Hewett, Lindell Harris, class of 1927 to class of 1928.....	Sept. 5, 1924
Hubbard, Robert Lee, jr., class of 1927 to class of 1928.....	June 1, 1924
Ingles, Paul, class of 1927 to class of 1928 r.....	Do.
Inscoc, Garland Medicus, class of 1927 to class of 1928.....	May 29, 1924
Jackson, William Crawford, class of 1927 to class of 1928.....	Do.
Jones, Fielder Allison, class of 1925 to class of 1926.....	Feb. 13, 1924
Keith, Robert Taylor Scott, class of 1927 to class of 1928.....	Sept. 5, 1924
Kennedy, William Dewitt, class of 1927 to class of 1928.....	May 29, 1924
Kent, John, class of 1927 to class of 1928.....	Sept. 5, 1924
Kluegel, John Van Rensselaer, class of 1927 to class of 1928.....	Sept. 5, 1924
Leahy, William Harrington, class of 1926 to class of 1927.....	June 1, 1924
Lofberg, Gus Brynolf, jr., class of 1926 to class of 1927.....	Feb. 13, 1924
Manees, Edward Oslin, class of 1927 to class of 1928.....	May 29, 1924
McClaghry, John Glenn, class of 1926 to class of 1927.....	Feb. 13, 1924
Orf, Harold George, class of 1927 to class of 1928.....	May 29, 1924
Otis, Maurice Lowell, class of 1927 to class of 1928.....	Do.
Perrine, Pierre Clyde, class of 1927 to class of 1928.....	Do.
Peterson, James Shadle, class of 1927 to class of 1928.....	June 28, 1924
Pryor, Francis Dennis, class of 1926 to class of 1927.....	Mar. 21, 1924
Quast, Harry Carleton, jr., class of 1927 to class of 1928.....	Sept. 5, 1924
Radom, Matthew, class of 1927 to class of 1928.....	Sept. 5, 1924
Renard, Jack Clayton, class of 1927 to class of 1928.....	May 29, 1924
Rice, James Mitchell, class of 1927 to class of 1928.....	Do.
Richardson, Harry Wallace, class of 1927 to class of 1928.....	Sept. 5, 1924

Name and class	Date turned back
Rickertts, Roland Wendell, class of 1926 to class of 1927.....	Apr. 7, 1924
Ross, Harold Jerome, class of 1926 to class of 1927.....	Do.
Sayers, Lewis Wetzel, jr., class of 1927 to class of 1928.....	Sept. 8, 1924
Shapley, Allan, class of 1926 to class of 1927.....	Mar. 12, 1924
Smyth, John Borden, class of 1926 to class of 1927.....	Feb. 13, 1924
Stewart, William Henry, jr., class of 1926 to class of 1927.....	June 1, 1924
Stewart, William Holden, jr., class of 1927 to class of 1928.....	Sept. 5, 1924
Symes, Robert Thomas, class of 1926 to class of 1927.....	Feb. 13, 1924
Todd, David Wooster, class of 1927 to class of 1928.....	Sept. 5, 1924
Trafton, Spalding, jr., class of 1926 to class of 1927.....	Apr. 7, 1924
Wakeman, Calvin Edson, class of 1926 to class of 1927.....	Do.
Wey, Bosquet Neill, class of 1926 to class of 1927.....	Sept. 5, 1924
White, John Timothy, class of 1927 to class of 1928.....	Sept. 5, 1924
Wiedemann, Francis Joseph, class of 1927 to class of 1928.....	June 1, 1924
Wyatt, Joe Earle, class of 1927 to class of 1928.....	May 29, 1924
Zook, Hurley McCune, class of 1927 to class of 1928.....	Do.

# COURSE OF INSTRUCTION, 1924-25

[Reference books are marked\*]

## FIRST YEAR—FOURTH CLASS

### FIRST TERM

Departments	Periods each week	Subjects	Textbooks
MARINE ENGINEERING AND NAVAL CONSTRUCTION.	3	Mechanical drawing and descriptive geometry.	Bartlett and Johnson's Engineering Descriptive Geometry and Drawing.
MATHEMATICS.....	6	Solid geometry..... Plane trigonometry and logarithms. Mathematical analysis..	Hawkes—Luby—Touton. Bullard and Kiernan's Plane and Spherical Trigonometry. Griffin's Introduction to Mathematical Analysis. Bowditch's Useful Tables.*
ENGLISH.....	4	Composition and literature (including short speeches, official letters, and naval reports). Lectures by head of department.	Smith's What Can Literature Do For Me? Stevens and Alden's Composition for Naval Officers. Krafft and Norris's Sea Power in American History. Dana's Two Years Before the Mast. Houston and Bonnell's Types of Great Literature.
MODERN LANGUAGES..... (One half of the class studies Spanish and the other half French.)	3	Spanish.....	Webster's Collegiate Dictionary.* Hills and Ford's First Spanish Course. Appleton's New Spanish Dictionary.*
	3	French.....	The New Fraser and Squair French Grammar. Uniform International Dictionary, Hinds, Hayden, and Eldredge.*

### SECOND TERM

MARINE ENGINEERING AND NAVAL CONSTRUCTION.	3	Mechanical drawing and descriptive geometry.	Bartlett and Johnson's Engineering Descriptive Geometry and Drawing. Handy Book for Enlisted Men of Engineering Department.
MATHEMATICS.....	6	Mathematical analysis..  College algebra.....  Plane analytic geometry. (All three taken concurrently.)	Griffin's Introduction to Mathematical Analysis. Mechanical Engineer's Handbook, by Marks*. Bowditch's Useful Tables.* Reitz and Crathorne's College Algebra. Palmer and Krathwohl Analytic Geometry.
ENGLISH.....	4	Composition and literature (including short speeches, official letters, and naval reports). Lectures by head of department.	Stevens and Alden's Composition for Naval Officers. Houston and Bonnell's Types of Great Literature. Shakespeare's Twelfth Night, Hamlet, and Henry IV, Part 1.
MODERN LANGUAGES..... (One half of the class studies Spanish and the other half French.)	3	Spanish.....	Hills and Ford's First Spanish Course. Marcial Dorado and Ray's Trozos Modernos.
	3	French.....	The New Fraser and Squair French Grammar. Méras' Le Second Livre.

## SECOND YEAR—THIRD CLASS

## FIRST TERM

Departments	Periods each week	Subjects	Textbooks
MARINE ENGINEERING AND NAVAL CONSTRUCTION. MATHEMATICS.....	3	Engineering drawing....	Bartlett and Johnson's Descriptive Geometry and Drawing.
	5	Mathematical Analysis. Calculus.....	Griffin's Introduction to Mathematical Analysis. Townsend and Goodenough's Essentials of Calculus. Hudson's Engineers' Manual.* Smith & Gale.
ELECTRICAL ENGINEERING AND PHYSICS.	4	Solid analytical geometry. (Taken concurrently with Calculus.) Chemistry.....	McPherson and Henderson's Elementary Study of Chemistry. McPherson and Henderson's Exercises in Chemistry. Pamphlet. Dashiell's Problems in Chemistry.
ENGLISH.....	2	Naval history.....	Kraft and Norris's Sea Power in American History. Stevens and Westcott's History of Sea Power.
MODERN LANGUAGES..... (One half of the class studies Spanish and the other half French.)	2	Spanish.....	Crawford's Temas Españoles. Hills and Ford's First Spanish Course. Laguardia's Cuentos Hispanoamericanos.
	2	French.....	Méras' Le Second Livre. Fournon and Broussard's Pour Parler Français. The New Fraser and Squair French Grammar.

## SECOND TERM

MARINE ENGINEERING AND NAVAL CONSTRUCTION.	3	Mechanical Processes... Boilers .....	Danforth's Mechanical Processes. Lyon and Hinds' Marine and Naval Boilers. Bureau of Engineering Boiler Manual.
MATHEMATICS.....	5	Mechanics..... Polyphase Slide Rule...	Elementary Mechanics—Department of Mathematics, U. S. Naval Academy. Hudson's Engineers' Manual.*
	4	Physics.....	Breckenridge. Milliken, Gale and Pyle's Practical Physics. Kimball's College Physics. Department pamphlet on Gyro, Theory of Flight, Thermodynamics, etc.
ELECTRICAL ENGINEERING AND PHYSICS.	2	Modern essays.....	Smith's Essays on Current Themes.
ENGLISH..... MODERN LANGUAGES..... (One half of the class studies Spanish and the other half French.)	2	Spanish.....	Laguardia's Cuentos Hispanoamericanos. Hills and Ford's First Spanish Course.
	2	French.....	Fournon and Broussard's Pour Parler Français. The New Fraser and Squair French Grammar.

## THIRD YEAR—SECOND CLASS

## FIRST TERM

Departments	Periods each week	Subjects	Textbooks
SEAMANSHIP .....	2	Seamanship.....	Knight's Seamanship. Boat Book, 1920. Cyclonic Storms. Handling Ships, Notes B. Nautical Phraseology. Signal Books, U. S. Navy. U. S. Navy Regulations.
MARINE ENGINEERING AND NAVAL CONSTRUCTION.	4	Signals..... Regulations..... Leadership..... Mechanisms.....	Naval Leadership. Schwamb, Merrill & James—Ele- ments of Mechanism.
MATHEMATICS.....	5	Reciprocating Engines and Auxiliary Ma- chinery..... Mechanics.....	Barton & Stickney's Naval Recipro- cating Engines and Auxiliary Machinery. Elementary Mechanics.—Depart- ment of Mathematics, U. S. N. A. Hudson's Engineers' Manual.*
ELECTRICAL ENGINEERING AND PHYSICS.	3	Polyphase Slide Rule... Magnetism and elec- tricity (DC).	Breckenridge. Timble's Elements of Electricity. Bullard's "Naval Electricians' Text Book," Vols. I and II.
MODERN LANGUAGES .....	2	Spanish.....	Howland's Zaragüeta. Hills and Ford's First Spanish Course.
(One half of the class studies Spanish and the other half French.)	2	French.....	Morley's Spanish Humor in Story and Essay. The New Fraser & Squair French Grammar. Wilson's Le Roi des Montagnes.

## SECOND TERM

SEAMANSHIP.....	1	Leadership.....	Naval Leadership.
ORDNANCE AND GUNNERY.....	2	Ordnance, gun design, and elementary fire control.	Naval Ordnance, 1921.
NAVIGATION.....	5	Navigation.....	Navigation, 1922. Bowditch's Tables. Nautical Almanac.* Azimuth Tables.*
MARINE ENGINEERING AND NAVAL CONSTRUCTION.	4	Reciprocating Engines and Auxiliary Ma- chinery..... Thermodynamics.....	Barton & Stickney's Naval Recipro- cating Engines and Auxiliary Machinery. Ennis' Thermodynamics Abridged.
ELECTRICAL ENGINEERING AND PHYSICS.	3	Electricity (direct cur- rent). Dynamo electric ma- chines, primary and secondary batteries, searchlights, tele- phones, etc.	Bullard's "Naval Electrician's Text- books," Vols. I and II. Timbie's "Elements of Electricity."
MODERN LANGUAGES .....	2	Spanish.....	Morley's Spanish Humor in Story and Essay. Spanish Nautical Phrase Book and Reader.
(One half of the class studies Spanish and the other half French.)	2	French.....	Wilson's Le Roi des Montagnes. French Nautical Phrase Book and Reader.

## FOURTH YEAR—FIRST CLASS

## FIRST TERM

Departments	Periods each week	Subjects	Textbooks
SEAMANSHIP.....	3	Seamanship.....  Signals..... Elementary strategy and tactics.	Knight's Seamanship. Boat Book, 1920. Cyclonic Storms. Handling Ships, Notes "B." Nautical Phraseology. Signal Books, U. S. Navy. Special pamphlets.
ORDNANCE AND GUNNERY.....	3	Communications..... Ordnance and ballistics.	Notes on Naval Communications. Naval Ordnance, 1921. Gunnery instructions, U. S. Navy. Exterior Ballistics, Alger. Notes on Fire Control and Torpedoes.
NAVIGATION.....	3	Theory and practice of navigation. Theory of compass deviations.	Navigation, 1922. Bowditch's Tables. Nautical Almanac.* Azimuth Tables.*
MARINE ENGINEERING AND NAVAL CONSTRUCTION.	2	Turbines.....	Cox & Libbey's Naval Turbines.
ELECTRICAL ENGINEERING AND PHYSICS.	3	Alternating current and alternating current machinery. Radio.....	Bullard's "Naval Electrician's Text-book," Vols. I and II. Signal Corps' Principles Underlying Radio Communication. Departmental Radio Instructions. Turner's Europe since 1789.
ENGLISH.....		Modern European History (with lectures). After-dinner speaking (Tuesday and Thursday evenings).	

## SECOND TERM

SEAMANSHIP.....	3	Regulations..... Military Law..... International Law.....	U. S. Navy Regulations. Naval Courts and Boards. International Law—Soule & McCauley.
ORDNANCE AND GUNNERY.....	4	Leadership..... Ballistics, fire control, torpedoes, and gunnery.	Naval Leadership. Exterior Ballistics, Alger. Gunnery Instructions. Bureau of Ordnance Pamphlets. Notes on Fire Control, Mines and Torpedoes. Official Publications.
NAVIGATION.....	3	Theory of compass deviations. Practical navigation.....	Navigation, 1922. Bowditch's Tables. Nautical Almanac.* Azimuth Tables.*
MARINE ENGINEERING AND NAVAL CONSTRUCTION.	3	Internal Combustion Engines. Naval construction	Lind's Internal Combustion Engines. (Manning & Schumacher's.) Naval Architecture and Warship Construction.
ELECTRICAL ENGINEERING AND PHYSICS.	3	Alternating current and alternating current machinery. Radio.....	Bullard's "Naval Electrician's Text-book," Vols. I and II. Signal Corps' "Principles Underlying Radio Communication." Departmental Radio Instruction.
ENGLISH.....		After-dinner speaking (Tuesday and Thursday evenings).	
HYGIENE.....		Effects of alcohol and narcotics. Naval and military hygiene. First aid to the injured (14 Friday evening periods).	Heiner's Physiology, First Aid and Naval Hygiene.

*Assignment of time, 1924-25*

## NOTES

- (1) The fourth class program changes on 1 September. In modern languages, the first and third platoons study Spanish, the second and fourth platoons study French. Assignments to each language on entrance become permanent for the entire course, and assignments of the fourth class to battalions in the regiment for the opening of the academic year is made from the platoon with the corresponding number.
- (2) Where a drill involving physical exercise is followed by a recitation period, the drill officer will dismiss in sufficient time for a bath and the necessary change of clothing or uniform required for the recitation.
- (3) Except when modified by this program, articles 622-624 remain in effect.
- (4) There will be mass singing from 8-8.30 p. m. Monday and Friday from 16 June to 1 September.
- (5) Two lectures last half of month.

# RÉSUMÉ OF COURSE OF INSTRUCTION

## EXECUTIVE

The executive department, under the direction of the commandant of midshipmen, accomplishes the following functions:

Development of officer-like character and qualities in midshipmen.

Enforcement of the regulations for interior discipline.

Service of the regiment by its auxiliary departments, including the commissary, midshipmen's store, tailor shop, cobbler shop, and barber shop.

Administration of Bancroft Hall, where the regiment is quartered.

Accomplishment of executive drills, namely, infantry, setting-up, and bayonet exercises.

Supervision over all midshipmen entertainments and activities other than academic work.

Supervision of the Naval Academy Band, the police force, and fire organization.

Operation and upkeep of Naval Academy farm and dairy.

It is the endeavor of this department to instill into the regiment of midshipmen the highest standard of honor, loyalty, and patriotism. This is accomplished in the development of mental and physical cleanliness, the proper sense of duty and responsibility, and ability to command men.

NOTE A.—A drill week begins Monday and ends Saturday, drills being held daily except Wednesday.

NOTE B.—In addition to above scheduled drills, commencing Monday, 24 November, 1924, and ending Saturday, 28 March, 1925, weekly gymnasium work will be held as follows: The first class on Saturdays; the second class, first and second battalions, on Mondays, third and fourth battalions on Tuesdays; the third class, first and second battalions, on Thursdays, and third and fourth battalions, on Fridays.

NOTE C.—During winter drills (from 24 November to 28 March, inclusive), when first class has ordnance, it will attend ordnance drill Saturday mornings of ordnance weeks instead of going to gymnasium.

NOTE D.—Graduation exercise drills will be specially prescribed.

NOTE E.—Fire drills will be held monthly.

NOTE F.—During the second period on Saturdays of December, January, February, and March, the second class will have recitation in Seamanship and the third class will have recitation in E. E. & P.

### SEAMANSHIP

The department of seamanship has for its mission the instruction of midshipmen to the end that upon graduation they may be capable of efficiently performing the duties of a junior officer afloat, as junior officer of the watch, junior deck division officer, junior forecandle officer, boat officer, assistant communication officer, and recorder of a summary court-martial.

Seamanship drills commence with the day of the fourth classman's entrance into the academy, continue throughout the entire course, and are supplemented by practical instruction on the practice cruises. Commencing with learning how to pull a service cutter, the drills progress through handling service-type and civilian-type boats under oars, sail, and power; signals—semaphore, Morse visual code, and flag hoist; ground tackle work; knotting and splicing; compass, log, and lead; tactics and evolutions; and communications.

In general, members of the fourth class take the ordinary crew duties, and have qualifications similar to seaman; third class, as important crew members, with qualifications as petty officer; second class, as second in command, with qualifications as chief petty officer; and first class, in command, with qualifications as junior officer.

Recitations are held in seamanship first term of third year, and throughout both terms of the fourth year. The instruction covers signals, seamanship in general, nautical phraseology, communications, regulations, military law, elementary strategy and tactics, international law, and leadership.

For the first class, additional instruction in tactics and in seamanship evolutions is carried on in submarine chasers, all of the duties of the deck force being taken over by the midshipmen, under the supervision of experienced officer instructors.

### ORDNANCE AND GUNNERY

The course includes all the theoretical and practical instruction required for the performance of gunnery duties aboard ship as a junior officer and in addition gives a thorough basic foundation for future study and development work in ordnance and gunnery. It is divided into two parts, section room and practical instruction. The section room instruction covers subjects which must be studied and can best be learned as a midshipman; the practical instruction and drill includes work with all types of naval ordnance from small arms to turret guns and methods for control of all weapons. Drills which can be best given aboard ship and preparations for target practice are held during the practice cruise and not at the Naval Academy.

The practical work begins the summer of the fourth class year and includes firing on the rifle range with rifles and pistol up to the experts, course, drill with broadside guns, and explanation of all ordnance equipment and models in Dahlgren Hall. During the fourth, third, and second class years this practical instruction is continued with machine guns, broadside battery, models and training in the duties of all personnel connected with ordnance. First class year is devoted to fire control and methods of using broadside and turret guns, torpedoes, aviation ordnance, grenades, and gas masks.

Instruction in the section room begins the second term, second class year, with a study of principles of naval ordnance gun design and elementary fire control as preparation for the duties of the first class practice cruise, when midshipmen, first class, perform the duties of officers in gunnery exercises with the fleet. In first class year a study is made of the theory of gun design, powder pressures, velocities and trajectories of projectiles, ranges and errors of naval guns, fire control of all types of guns, gunnery methods, including aviation gunnery, torpedoes and mines, and the duties of a junior officer in the gunnery department aboard ship.

Textbooks and service publications are used which have been specially written by experienced officers of the United States Navy for instructional purposes of midshipmen and junior officers. Besides the study of these, a series of lectures on practical ordnance and gunnery is given by officers from the Navy Department and the fleet.

Throughout the course great stress is laid not only upon the duties of a junior officer in gunnery, but the relation of each subject to the development of ordnance and gunnery in the United States Navy, the present gunnery methods of the fleet and the possible future requirements which must be met by naval officers who are graduates of the Naval Academy.

## NAVIGATION

The time assigned to the department of navigation and the utilization of same is as outlined below:

The subject of navigation is first taken up by the midshipman during his second class cruise and is continuous from then until graduation. Ground covered by terms:

*Second class cruise.*—Elementary navigation to the sailings, including definitions, instruments, charts.

*Second term, second class year.*—Navigation up to point of working sights as follows: Nautical astronomy, definitions, charts, compass and piloting, sailings, and dead reckoning, chronometer, time, Nautical Almanac. From sights to day's work as follows: Time, Nautical Almanac; latitude sights, azimuth, St. Hilaire—all of sun; sidereal time, latitude, azimuth, and St. Hilaire of heavenly bodies; interval to noon, day's work.

*First class cruise.*—One-half of the first class are on deck detail for each half of the cruise and while on this detail do navigation daily. This consists of, in clear weather, day's work, morning and noon sights, noon position, and morning or evening star sights. In cloudy weather other suitable navigational subjects are assigned.

*First term, first class year.*—To a great extent a general review of second class work, but going more fully into the subject, especially so with compass work.

*Second term, first class year.*—Day's work with all variations, gyro compass, and short course on tides, sun and moon, rise and set, and surveying. The aim of the department in above courses is to thoroughly ground the midshipman in the principles of navigation so that on graduation he will be a valuable assistant to the navigator of any ship.

During the academic year one week of drill is given the first class. These drills consist of handling and adjustment of sextant, use of artificial horizon, piloting in Annapolis Harbor, instruments and publications for purposes of navigation.

*Work afloat.*—Throughout the summer practice cruises the midshipmen are required to perform all the general duties of a navigator, with particular reference to the adjustment and use of the navigational instruments on board, to practical piloting, and, at sea, to the determination of the ship's position by observation.

## MARINE ENGINEERING AND NAVAL CONSTRUCTION

*Mechanical drawing and descriptive geometry* (first year, first term).—Instruction in use of drawing instruments and development of manual dexterity in employment. Standard methods of lettering and practice in their use. Application of the foregoing to descriptive geometry, with the representation of lines, planes, curved surfaces and intersections, in order to develop the ability to visualize objects in space.

*Engineering drawing* (first year, second term, and second year, first term).—Making of free-hand working sketches of small machine parts, with full dimensional data taken from work, and the making of standard working drawings from such sketches. The making of detailed from assembled drawings, and vice versa, particular emphasis being laid upon the ability to correctly read blue prints.

*Mechanical processes* (second year, second term).—A study of engineering and construction materials and the essential steps in producing them from the ore to the finished product. Methods of shaping metals for use and the shop processes generally used in mechanical and marine engineering construction. Construction and operation of principal machine tools and work for which employed.

*Boilers* (second year, second term).—A study of marine boilers, including a detailed study of the more important types, with methods of manufacture and materials used; general methods of repair; fuels, both oil and coal, and proper method of burning for greater economy; boiler auxiliaries and details of construction; tests and how conducted; operation, care, preservation, and overhaul.

*Elements of mechanisms* (third year, first term).—A study of the underlying principles governing the relative motions of parts of machinery, including revolving and oscillating bodies; belt, rope, and chains; motion by pure rolling contact; gears and gear teeth; wheels in train; inclined plane, wedge screw, worm, and wheel; cams; relative velocities of rigidly connected points; linkwork; straight-line mechanisms; parallel motions; aggregate combinations; pulley blocks; intermittent motion.

*Naval reciprocating engines and auxiliary machinery* (third year, first and second terms).—General principles and thermodynamics as applied to this type of engine; detailed study of mechanical parts and materials used; measurement of power; construction and operation of condensers, pumps, valves, heaters, tanks, etc.; lubrication, operation, care, and overhaul of complete installations.

*Thermodynamics* (third year, second term).—The utilization of heat as energy to perform mechanical work in various types of machinery such as turbines, internal-combustion engines, refrigerating machinery, etc., including a study of the use of steam tables and diagrams.

*Steam turbines* (fourth year, first term).—Underlying principles of turbines, their classification into types, and the characteristics of each type. Necessary turbine auxiliaries. Detailed study of Parsons and Curtis marine turbines, and a general study of the various makes of smaller turbines used in the Navy. Operation and care of marine turbine installations.

*Internal-combustion engines* (fourth year, second term).—Underlying principles of internal-combustion engines. Study of Otto and Diesel cycles, and their ap-

plication to existing types of engines. Fuels and lubricants. Detailed study of marine types of gasoline and oil engines, and of aircraft engines, including mechanical parts, carburetion, lubrication, cooling and ignition systems, and methods of reversal. Most common faults and remedies.

*Naval construction* (fourth year, second term).—General study of ship's lines and definitions pertaining thereto. Various steps in planning a ship. Calculations of areas and volumes. General principles of stability, both static and dynamic. Displacement and trim, with curves in relation thereto. Effects of weight distribution and of weight shifting. Resistance of ships. Coefficients of speed. Law of corresponding speeds. Ship nomenclature. Details of construction of naval vessels. Launching and docking. General arrangement of ship compartments and methods of flooding, draining, and ventilating. Details of steering gear. Care and preservation of hulls.

#### PRACTICAL WORK

*First year.*—Pattern shop: Selection and treatment of different woods for different purposes; elementary work of the carpenter shop, through mortising, joining, woodworking lathe, etc., to finished pattern work.

Machine shop: Vise bench work showing the proper use of various bench tools.

Miscellaneous: Examination of and lecture on models of valves, boilers, and engines.

*Practice cruise.*—Handling of ship's boilers when in port and at sea; management of main and auxiliary machinery; fireroom and engineroom routine; overhauling machinery, cleaning boilers, evaporators, etc.

*Second year.*—Foundry: Kinds of sand and implements used; making of molds; melting and pouring of iron and brass.

Forge shop: Equipment and tools used; forging, welding; tempering, case-hardening, etc.; bending and quenching tests of metals, etc.

Boiler shop: Riveting, soft and hard patching; calking, annealing, cutting out tubes, expanding tubes, etc.

Coppersmith shop: Soldering, hard and soft; making copper pipe; putting flanges on pipe; use of oil furnace and oil heater; sweating patch on a copper pipe.

Machine shop: Machine-tool work from working drawings including the setting of work; machine tools used are lathes, planers, vertical and horizontal boring mills, simple and radial drill pressers, shapers, milling machines, slotters, etc.

Fuel-oil-burning boiler: Lighting fires and raising steam from a cold boiler; handling boiler under forced draft; control of fires for smokeless or smoke conditions; study of various types of burners; safety precautions to be observed in the handling and burning of fuel oil.

Miscellaneous: Use of various measuring instruments; gauge calibration; acetylene cutting and welding; electric welding; thermit welding; strength of metals.

*Practice cruise.*—Engineroom and fireroom routine in port and at sea; management of boilers in port and at sea; management of main and auxiliary machinery; overhauling machinery, cleaning boilers, evaporators, etc.

*Third year.*—Lining up, bearing adjustment, and valve setting of engines; operation and overhauling of evaporator plant, refrigerating plant, air compressors, traps, steering and anchor engines, detailed inspection of pumps, condensers, and distillers; propeller measurements; operation of steam reciprocating engines; and determination by indicator of horsepower developed; coal testing; flue gas analysis; boiler inspections and tests.

*Practice cruise.*—Administration of engineer department; management of boilers in port and at sea; management of main and auxiliary machinery under various conditions of steaming; overhauling machinery, cleaning boilers, evaporators, etc.; engineroom and fireroom routine in port and at sea.

*Fourth year.*—Operation of steam turbines and internal-combustion engines; determination, by dynamometer, of horsepower developed; torsion meter; detailed inspection of marine turbines, reduction gear, and condensing plant;

detailed inspection of carburetors and the adjustment of them; detailed inspection of various types of marine and aircraft gas engines; also of models of various ships showing the details of warship construction; operation of graving and floating dry docks; water testing; fuel-oil testing.

### MATHEMATICS

*Solid geometry* (first year, first term).—The geometry of lines and planes in space, polyhedrons, cylinders, cones, spheres; development and use of formulas for surfaces and volumes; demonstrations of propositions; solution of problems by construction and computation.

*Logarithms* (first year, first term).—Definitions and properties; practical use in computation; tables of logarithms of numbers, of logarithms of trigonometric functions, and tables of natural functions; haversine tables; special system of forms for computation.

*Plane trigonometry* (first year, first term).—Measurement of arcs and angles; trigonometric functions; development and use of fundamental trigonometric relations and identities; solution of trigonometric equations; solution of all cases of plane triangles, including development of formulas and methods for same; simple applications to measuring heights and distances.

*Mathematical analysis* (first year, first term).—Functions and graphs; instantaneous rates, tangents, areas, etc., as *limits*; differentiation; integration.

*Mathematical analysis* (first year, second term).—The remainder of this text is completed during the second term and is taken concurrently with college algebra and plane analytic geometry—parts of each of these two subjects being taken up when needed by the treatment of the analysis. The remainder of the analysis covers—trigonometric functions, logarithmic and exponential functions; rectangular coordinates; solutions of equations; polar coordinates; trigonometric analysis; definite integrals; progressions and series; permutations, combinations and probability; complex number system.

*Algebra* (first year, second term).—Short review of important parts of elementary algebra; beyond quadratics and advanced algebra, including inequalities, mathematical induction, binomial theorem, variation, progressions, complex numbers, theory of equations, partial fractions, permutations, combinations, probability, determinants.

*Analytic geometry* (first year, second term, and second year, first term).—Cartesian and polar coordinates; equations of straight lines and of the conic sections; equations of given loci; loci of given equations, analysis and plotting; parametric equations; transcendental curves; general equation of second degree, discussion and simplification; equations of the plane, of the straight line in space, and of special surfaces of second order.

*Calculus* (second year, first term).—Taken concurrently with solid analytic geometry; constants, variables, and functions; derivatives of algebraic functions, applications of derivatives; differential notation; differentiation of transcendental functions; integrations; applications of integrations; successive differentiations and integrations; curves and curve tracing; definite integrals; application of integrations to geometry and mechanics; special methods of integrations; functions of two or more variables; multiple integrals; infinite series.

*Mechanics* (second year, second term).—Theory and use of slide rule; vectors; statics of a particle; forces acting on a rigid body; statics of a rigid body; centers of gravity and moments of inertia; fluid pressure; deformable bodies, beams; rectilinear motion; work and energy; curvilinear motion; dynamics of a rigid body.

NOTE.—Due to change in arrangement of course "Mechanics" will be given also during third year, first term, but in following years will occur second year, second term.

*Mechanics* (third year, first term).—Theory and use of slide rule; vectors; statics of a particle; forces acting on a rigid body; statics of a rigid body; centers of gravity and moments of inertia; fluid pressure; deformable bodies, beams; rectilinear motion; work and energy; curvilinear motion; dynamics of a rigid body.

*Spherical trigonometry and stereographic projections* (third year, first term).—Solution of all cases of spherical triangles, including development of formulæ; graphical solution of spherical triangles; great circle courses and distances, both graphical and numerical solutions; the astronomical triangle and its projection in various primitives; numerical solutions of astronomical triangle covering various cases—time sight, meridians, altitude, etc.

NOTE.—Due to change in arrangement of course no class will have spherical trigonometry and stereographic projections this year, but it will be given at this point next year.

## ELECTRICAL ENGINEERING AND PHYSICS

The courses of instruction undertaken by this department cover a wide scope and include chemistry, physics, direct-current electricity, alternating-current electricity, and radio. The time available for each of these subjects is comparatively short, and the courses are, therefore, more or less elementary, special emphasis being placed on fundamental principles. The following is an outline of the subjects studied by each class.

### THIRD CLASS—FIRST TERM

The first term is devoted to the study of chemistry, the ground covered being general inorganic chemistry, with laboratory work. In addition, lectures are given on the application of chemistry to devices and appliances in the service, viz, water testing, gas analysis, explosives, war gases, and include elementary organic chemistry and qualitative analysis.

Practical work in the chemical laboratory supplements the classroom instruction. Simple experiments are performed illustrating mechanical mixtures, chemical compounds, the preparation and properties of various gases, the electrolysis of water, the properties of metal and their compounds, etc.

While the shortness of the time allowed necessitates only an elementary treatment of most subjects, it is believed that the course is of sufficient scope for the needs of a naval officer.

### SECOND TERM

The important subject of physics is covered during the second term and includes a study of mechanics, heat, light, and sound, and magnetism, and the application of the various natural laws and phenomena in these branches of the subject. The course forms the groundwork for more advanced studies in other departments, and includes the elements of thermodynamics, problems on the flight of projectiles, and the theory and practical application of the gyroscope in the torpedo, the gyrocompass, and stabilizers for ships.

Practical work in the physics laboratory comprises experiments illustrating various physical laws and phenomena studied in the classroom. A number of lectures are also given during the term.

### SECOND CLASS—FIRST AND SECOND TERMS

The whole of second class year is devoted to the study of magnetism, electrostatics, and direct-current electricity. During the first term, the fundamentals of simple electric circuits are studied with applications of Ohm's and Kirchhoff's

laws, while the second term is devoted principally to the theory and operation of dynamo electric machines and to the electrical installations found on board naval vessels.

The laboratory work covers the following: Magnetic fields, induced currents, measurement of resistance, divided circuits, fall of potential, use and calibration of different measuring instruments supplied to ships, setting up and operation of primary and secondary batteries, operation of searchlights, arc and mercury vapor lamps, telephones and other electrical interior communication apparatus supplied to naval vessels, operation and measuring efficiencies of dynamos and motors, devices for motor-control, manipulation of switchboard, operation of electrical machinery supplied to naval vessels, testing for and locating faults and grounds, measuring insulation resistance of electric plants, etc.

A series of lectures is also given during the term which are designed to elucidate difficult points, and as a review of the text already covered.

#### FIRST CLASS—FIRST AND SECOND TERMS

The first class takes up the subjects of radio and alternating-current electricity, the time available in each term being about equally divided between the two studies. The radio course has been extensively enlarged, and covers, in addition to simple spark sets, the use of vacuum tubes in radio transmission, including the radiotelephone. The course in alternating-current electricity is considered to be of great importance due to the application of alternating-current machinery on board ship, principally in connection with the electric drive. The course starts with the theory of alternating-current generators and simple alternating-current circuits, and advances into the study of synchronous motors, transformers, polyphase currents, and induction motors, with the application of the latter to the electric drive.

Laboratory work and lectures form an important part of the course. The electrical laboratory work comprises an elementary study of inductance and capacity in alternating-current circuits, alternating-current dynamos, motors, and transformers. In the radio laboratories the instruction comprises experiments with simple oscillating circuits, spark sets, arc sets, vacuum-tube sets, and amplifiers.

#### ENGLISH

Instruction is given in composition, literature, naval history, and modern European history. In composition the emphasis is put upon (1) the paragraph, as the constructive unit; (2) the letter, social and official, this being the kind of composition that every midshipman will be called upon most frequently to write; (3) the naval report, a species of writing that ranges in subject matter from a damaged catboat to a fleet engagement; and (4) after-dinner speaking, an oral form of composition in which no naval officer can be inexperienced without loss of dignity and usefulness. But composition is not divorced from literature. The two are taught together, literature furnishing both model and incentive to composition. The types of literature studied are the epic, the lyric, the ballad, the drama, history, biography, the letter, the speech, and the essay—all the existent types except the novel and the short story. The essay is stressed more than any other type, one whole term being given by the third class to a study of modern essays that treat modern themes.

In naval history no attempt is made to teach strategy as such, but the evolution and influence of sea power are traced from Salamis to Jutland, the facts of each great engagement being so presented that an adequate foundation is laid for later and more specialized studies in both strategy and tactics. In modern European

history the course consists of a comprehensive textbook, supplemented by lectures, some of them by historians of national reputation and others by men of affairs who are authorities on the countries studied. The aim is not only to vitalize the study of history but to give the midshipman such a knowledge of national ideals and international problems as will fit him to be an intelligent and tactful representative of America and Americanism in every port he may visit.

At the beginning of every course in English the effort is made to secure the interest and cooperation of the midshipman by making clear to him just how and why the proposed course will be of practical benefit to him in his career as a naval officer.

### MODERN LANGUAGES

1. The mission of the department of modern languages is to give to midshipmen a sufficient knowledge of French or Spanish to help or enable them to converse in the foreign tongue, to express themselves clearly in written communications, and to read with sufficient ease French or Spanish of average difficulty. Throughout the course emphasis is laid on the knowledge of fundamental elementary principles to the end that, however late in his career he may be called upon to utilize his knowledge, the officer will have a solid foundation on which to build.

2. On admission to the Naval Academy approximately one half of the midshipmen are assigned to study French while the other half are assigned to study Spanish. This assignment depends on the preference of the individual midshipman and is permanent for the entire course.

3. The textbooks in use are modern and practical. Since the number of midshipmen in a section does not exceed 15, special attention is given to the individual.

4. The course in modern languages covers three academic years and consists of approximately 200 recitations.

### HYGIENE

Soon after entrance midshipmen of the fourth class are given a course in personal hygiene and the care of the human machine. This includes a series of lectures to the class as a whole and instructions of a more detailed character over a period of several months to small groups of the class. The purpose of this course is to prepare the members of the entering class to make their fullest personal contribution to the continuance of their health (individually and collectively) and thus to their best scholastic possibilities. In other words, it is to ground them in the art of keeping themselves in good health—to acquaint them with those precautions which every man can take in his own behalf to prevent disease or minimize its effects and thus maintain himself at all times in the best possible physical condition and mentally alert. The course comprises the following subjects:

- (a) Physical education; i. e., care of the human machine.
- (b) Personal hygiene, including social hygiene education.
- (c) Physical training, the benefits of muscular activity, and the dangers of overtraining.
- (d) Preventable diseases and simple rules for maintaining health.
- (e) Oral prophylaxis and the care of the teeth.
- (f) Mental health, self-mastery, and characterology.

A competent representative of the medical department is always present at all official contests and authorized sports. For graduation a midshipman is required to show, by standard strength and gymnasium tests, that he is 100 per cent physically efficient.

The first class during the second term is given a course in general hygiene, physiology, and first aid, using the adopted textbook by Commander R. G. Heiner, Medical Corps, United States Navy. An outline of the course is as follows:

- I. Minute anatomy and cell physiology.
- II. Gross anatomy and physiology.
- III. Bacteriology.
- IV. Preventative diseases.
- V. Venereal diseases.
- VI. Naval hygiene.
- VII. Military hygiene.
- VIII. Physical training.
- IX. First aid, including that for the effects of gas warfare.
- X. Alcohol and other narcotics; their effects and dangers.

The course is illustrated by charts, manikin, skeleton, blackboard drawings, and moving-picture reels and includes a special lecture on the relation of the oral cavity to the general nutrition and health of the body.

Emphasis is placed on the methods of giving first aid, and practical demonstrations are given in order to prepare these future officers for the instruction of the men of their divisions, as required by Navy Regulations.

At the end of this course of 14 periods an examination is held covering all of the subjects contained in the textbook above mentioned.

### PHYSICAL TRAINING

Strength tests are made of each midshipman by the gymnasium medical officer and careful records are prepared and kept as a guide to his physical development. Special exercises are prescribed to build up weak muscle groups as shown by the strength tests.

Recognizing the importance of posture to health, that of individual midshipmen on entrance, and such changes in it as may occur during the life at the academy will be subject to periodic observation and comparison with the aid of photographs, and these will be kept in a permanent record. Variation from normal will be demonstrated to the midshipman concerned with a view to enlisting his cooperation in corrective measures, and various exercises will be employed to accomplish the required correction.

Careful supervision of the physical development of all midshipmen is maintained throughout their entire time at the Naval Academy.

Company drills in Swedish exercises; instruction in the use of apparatus; special exercises to promote symmetrical physical development; each individual carefully instructed by medical officer in connection with physical training in conjunction with strength test card (covering exercises for muscle development and corrective exercises for poor brace); class work in wrestling, boxing, swimming, and fencing (small swords, broadswords, canes, and bayonets); training in the art of giving commands; company instruction in indoor and outdoor sports (football, baseball, crew, basket ball, lacrosse, soccer, tennis, handball) and in the elementary work of same; instruction in refereeing, wrestling, boxing, and swimming; instruction on life-saving and resuscitation of the apparently drowned. All midshipmen are given strength test to test muscle ability and physical requirement test to test the use of muscles. The physical requirement test includes such as running quarter mile, high jump, broad jump, chinning on horizontal bar, dips on parallel bars, rope climbing, etc.

# PRIZES AWARDED DURING THE ACADEMIC YEAR, 1923-24

## PRESENTED BY THE UNITED STATES NAVAL ACADEMY FOR GENERAL EXCELLENCE IN TARGET PRACTICE

Gold medal, small arms, Midshipman M. C. Mumma, jr., class of 1925; silver medal, small arms, Midshipman G. M. Cox, class of 1925; bronze medal, small arms, Midshipman A. D. Kramer, class of 1925.

Midshipmen who qualified as expert riflemen:

### SECOND CLASS

Caldwell, R. S.	Goodwin, J. F.	Orville, H. T.
Collins, C. J.	Hoffner, C. C.	Ray, C. C.
Cox, G. M.	Kramer, A. D.	Smith, C. C.
DeShazo, J. P.	May, B., 2d.	Smith, L. R.
Duncan, R. J.	Mumma, M. C., jr.	Tucker, D. P.

### THIRD CLASS

Buchanan, C. A.	Fullinwider, R.	Lindsey, W. C.
Chrismon, J. A.		

### CLASS OF 1897 SWORD AND CUP

A sword is awarded annually by the class of 1897 to that midshipman who has contributed most by his officerlike qualities and positive character to the development of military spirit and loyalty within the regiment. The name of the midshipman to whom the sword is awarded is inscribed on the class of 1897 cup. The cup is retained at the Naval Academy. Midshipman John Thomas Hogg, class of 1924, was awarded the sword and his name was inscribed on the cup.

### CLASS OF 1871 SWORD

The class of 1871 provides funds each year to be given to that midshipman of the graduating class who is most proficient in practical and theoretical ordnance and gunnery, with the understanding that the recipient will purchase a Navy dress sword with these funds. There are further requirements as to how the sword shall be engraved. Midshipman Clarence Eugene Ekstrom, class of 1924, was awarded this prize.

### GENERAL SOCIETY, SONS OF THE REVOLUTION CUP

A cup has been presented to the Naval Academy by the General Society, Sons of the Revolution, and remains here. Each year the name of the midshipman who is most proficient in practical ordnance and gunnery is inscribed thereon. The name of Midshipman Edward Vincent Dockweiler, class of 1924, was inscribed on the cup.

### NATIONAL SOCIETY, DAUGHTERS OF THE AMERICAN REVOLUTION CUP

A cup is presented each year by the National Society, Daughters of the American Revolution, and the name of the midshipman who excels in practical seamanship is inscribed thereon. Midshipman Henry Clay Drexler, class of 1924, was awarded the cup.

### THOMPSON PRIZE

A navigating sextant is awarded by Col. Robert M. Thompson to the member of each graduating class who proves himself most proficient in practical and theoretical navigation. Midshipman Clarence Eugene Ekstrom, class of 1924 was the recipient of the sextant.

### VAN DYKE PRIZE

A gold watch, suitably inscribed, is presented by Dr. Henry Van Dyke to the member of each graduating class who submits the best original article or theme on any naval or equally patriotic subject. Midshipman Samuel Guernsey Kelly, class of 1924, was awarded the prize.

### GARDNER L. CASKEY MEMORIAL PRIZE

A watch, known as the "Gardner L. Caskey Memorial Prize," is presented each year to the midshipman who graduates at the head of his class for the course. The watch was awarded to Midshipman Armand Malcolm Morgan, class of 1924.

### MAURY PRIZE

A pair of marine binoculars, known as the Maury Prize, is presented by the United Daughters of the Confederacy to the midshipman of the third class who excels in physics. Midshipman John Sylvester, class of 1926, was awarded this prize.

### THOMPSON TROPHY CUP

A cup, known as the "Thompson Trophy Cup," has been presented to the Naval Academy by Col. Robert M. Thompson, class of 1868, on which is inscribed each year the name of the midshipman who shall be declared by the executive committee of the Navy Athletic Association to have done the most during the year preceding for the promotion of athletics at the Naval Academy. This cup was awarded to Midshipman Stephen George Barchet, class of 1924.

### NAVY ATHLETIC ASSOCIATION SWORD

A sword is presented at the end of each academic year by the Navy Athletic Association to the midshipman who is considered to have personally excelled in general athletics during that year. Midshipman Ira Charles McKee, class of 1924, was awarded the sword.

### LETTERS OF COMMENDATION AND APPRECIATION

In accordance with Naval Academy Order 55-21, letters of commendation and appreciation were addressed to the below-named midshipmen, they having contributed most to the development of naval spirit and loyalty within the regiment during the academic year 1923-24:

John Thomas Hogg, class of 1924.

Stephen George Barchet, class of 1924.

Merle Alexander Sawyer, class of 1924.

William Pearsol Cochran, jr., class of 1924.

### HARVARD SHIELD

The numerals of the class of 1925 were engraved on the "Harvard Shield," which was presented by the Associated Harvard Clubs, as that class which excelled in interclass athletic contests during the past year.

### CRENSHAW CUP

The name of Midshipman Louis Hunter Gwinn, class of 1924, was inscribed on the Crenshaw memorial cup for 1924. This cup was presented by Mr. E. A. Crenshaw and upon it is to be inscribed each year the name of the coxswain of that eight-oared crew winning the greatest number of races for that year.

### LYSISTRATA CHALLENGE CUP

The race for the "Lysistrata challenge cup" was held on 24 August, 1924. Midshipmen crews in standard navy racing cutters competed. The crews finished in the following order: *Arkansas, Wyoming, New York, Texas.*

UNIVERSITY OF FLORIDA

3 1262 09088 6960
